

Find the money and the risk **hiding in your supply base.**

You already have the supplier data. Zeak connects it from any system you run and shows **where you are paying too much, which supplier could stop you, and what to do about it. Not every supplier problem needs AI:** most value comes from connected data, clear rules and governed decisions, with a person approving everything that matters.

Human approval, never self-approved

Five ways Zeak **pays for itself**

Illustrative examples on mid-size categories; your case uses your own data

Stop price leakage

\$360K

index gap on a \$3M category

Prices above contract, index gaps, PO-only spend

Recover what suppliers owe

\$140K

recoverable on one supplier group

Rebates, chargebacks, warranty and quality costs

Protect revenue

\$294K

margin kept on one late material

Late supply traced to the orders it would stop

Buy on total cost

4%

hidden cost found in a 'cheap' source

Landed cost, quality, lead time, risk, sustainability

Release cash

\$820K

from net 30 to net 60 on \$10M

Terms, consignment and vendor-managed stock

A few of the metrics **Zeak tracks for you**

Many more, calculated from your own data, the same way on every screen

Revenue at risk

What a supplier failure would cost, by supplier and product

Survival gap

Weeks of recovery you cannot cover from stock or alternates

Price leakage

Paid price versus contracted price, line by line

Off-contract spend

Share of spend with no agreement behind it

OTIF and PPM

Delivery and quality from your actual receipts

Second-source coverage

Critical items with a qualified alternate, by site

Cost recovered

What suppliers owe you, claimed and recovered

Savings realized

Negotiated, implemented and Finance-validated, kept apart

No need to customize your ERP or fund a costly custom build. Supplier Intelligence is a powerful, configurable solution that fits the processes that are strategic to your company, and runs alongside the systems you already have.

Connects to **any system you run**

No limitation on the systems Zeak can connect to. One supplier view across every ERP, site and acquisition, read-only until you say otherwise.
